Second Chance Legacy Trust at a Glance

This section is the operating guide and records index for the Second Chance Legacy Trust. It explains how the family organizes Trust information, documents authority, maintains records, and reviews changes. It does not replace, amend, summarize away, or override the signed Trust instrument.

TRUST NAME	Second Chance Legacy Trust	DOCUMENT ID	SCL-FOS-02
GRANTORS / TRUSTORS	Marquise D. Scott and Caprice B. Louis-Scott	INITIAL TRUSTEE	Marquise D. Scott
TRUST CHARACTER	Revocable - exact rights governed by signed Trust	VERSION	1.0 - Review Draft
FAMILY BUSINESS INTEREST	100% sole legal Member of Second Chance Property Solutions, LLC	ACCESS	Restricted Family / Legal

PURPOSE OF THIS SECTION

PROTECT THE STRUCTURE Keep the Trust, amendments, ownership records, and authority documents organized and traceable.	PRESERVE CONTINUITY Give authorized family leaders a clear map for incapacity, death, succession, or emergency administration.
SEPARATE LAW FROM OPERATIONS Keep signed legal instruments distinct from Family OS summaries, checklists, and education materials.	SUPPORT STEWARDSHIP Create repeatable review, recordkeeping, funding, and change-control routines.
<i>CONTROL RULE: The signed Trust, signed amendments, valid assignments, LLC governing documents, beneficiary designations, and applicable law control whenever they conflict with this Family OS.</i>	

WHO HOLDS WHICH RESPONSIBILITY

Trust Roles and Authority Map

1	2	3	4
GRANTORS	TRUSTEE	LLC MANAGER	BENEFICIARIES
Create and fund the Trust; hold amendment or revocation rights only as provided in the signed Trust.	Administers Trust property, records, and decisions within granted authority.	Operates Second Chance Property Solutions under the Operating Agreement and Manager authority.	Receive benefits and protections according to the signed Trust, not informal expectations.

CURRENT APPROVED FAMILY STRUCTURE

MARQUISE D. SCOTT Joint Grantor / Trustor; initial sole Trustee; initial sole Manager of Second Chance Property Solutions, LLC; final business decision-maker unless later signed documents change those roles.	CAPRICE B. LOUIS-SCOTT Joint Grantor / Trustor; joint family legacy founder and intended joint beneficial/economic owner through the Trust structure, subject to the executed Trust language and later signed amendments.
TRUSTEE DECISIONS Trust administration decisions must be documented when they affect title, distributions, appointments, ownership, banking, taxes, business control, or successor authority.	NO INFORMAL CHANGES Texts, verbal statements, casual notes, and website edits do not change the Trust. Legal changes require the method stated in the signed Trust and applicable law.
<i>VERIFY BEFORE ACTIVATION: The exact amendment, revocation, incapacity, successor-trustee, and beneficiary provisions must be cross-checked against the executed Trust and every signed amendment.</i>	

TRUST-OWNED ENTERPRISE

Trust-to-Business Ownership Map

SECOND CHANCE LEGACY TRUST

100% sole legal Member of Second Chance Property Solutions, LLC.

MARQUISE D. SCOTT - INITIAL SOLE TRUSTEE

Exercises Trust authority only within the signed Trust and applicable law.

SECOND CHANCE PROPERTY SOLUTIONS, LLC

Manager-managed LLC. Marquise D. Scott is the initial sole Manager and final business decision-maker unless governing documents are changed.

REQUIRED ALIGNMENT RECORDS

LLC OPERATING AGREEMENT

Must identify the Trust as sole Member and preserve manager-managed authority.

MEMBER / TRUSTEE RESOLUTIONS

Document major ownership, banking, tax, management, and succession actions.

BUSINESS RECORDS

Articles, EIN confirmation, licenses, insurance, tax registrations, and annual reports remain in Section IV, with reference links [here](#).

CONFLICT CHECK

Any inconsistency between Trust, Articles, Operating Agreement, or resolutions must be logged and professionally reviewed.

The Family OS may display ownership and authority, but it cannot create legal ownership by itself. Transfers and appointments require the proper signed documents.

ONE CLEAR HOME FOR EVERY TRUST RECORD

Controlled Trust Records Index

ID	RECORD	ACCESS	CONTROL STANDARD
02.01	Executed Trust instrument	Restricted Legal	Original / certified copy location recorded; never upload unredacted public copy.
02.02	Signed amendments and restatements	Restricted Legal	Chronological; never overwrite prior executed versions.
02.03	Certification of Trust	Restricted Legal	Current version for institutions; verify accuracy after every amendment.
02.04	Trustee acceptance / appointment records	Restricted Legal	Initial and successor trustee records.
02.05	Trust asset schedule and funding ledger	Restricted Financial	Tracks what is actually titled or assigned to the Trust.
02.06	LLC ownership records and assignments	Restricted Business	Links to Section IV originals and approved resolutions.
02.07	Beneficiary structure and distribution notes	Highly Restricted	Use summary sheets; avoid exposing sensitive personal details.
02.08	Legal, tax, and financial review notes	Restricted Advisory	Date, advisor, question, answer, and follow-up action.
02.09	Annual Trust review packets	Restricted Family	Checklist, findings, decisions, signatures, and next review date.
02.10	Superseded / archived records	Restricted Archive	Read-only history with superseded date and replacement reference.

Public GitHub pages must contain only non-sensitive summaries. Executed Trust documents, account data, identity records, and private beneficiary information belong in access-controlled storage.

ASSETS ARE NOT PROTECTED MERELY BECAUSE THEY APPEAR ON A LIST

Trust Funding and Transfer Workflow

This workflow is an administrative control, not a transfer instrument. Each asset type may require a deed, assignment, beneficiary designation, institution form, title change, operating agreement update, or professional approval.

1	2	3	4	5
IDENTIFY	REVIEW	EXECUTE	VERIFY	RECORD
Describe the asset, owner, value, account/title details, and intended Trust treatment.	Check legal, tax, insurance, lender, contract, and beneficiary consequences.	Complete the correct signed transfer, assignment, deed, designation, or institutional form.	Obtain proof the receiving institution or public record reflects the intended ownership.	Update the Trust asset schedule, digital index, binder reference, and review date.

FUNDING CHECKLIST

- ☐ Confirm the asset is eligible and appropriate for Trust ownership.
- ☐ Confirm whether spouse consent, lender approval, insurer notice, or counterparty consent is required.
- ☐ Use the exact legal name of the Trust and Trustee capacity shown in the executed documents.
- ☐ Retain signed originals or certified copies in the controlled legal vault.
- ☐ Record effective date, transfer document, confirmation source, and responsible person.
- ☐ Update insurance, tax, business, estate, and emergency records as needed.
- ☐ Do not mark an asset "funded" until ownership or beneficiary status is independently verified.

STATUS LABELS: Planned → Under Review → Documents Signed → Institution / Public Record Confirmed → Fully Recorded.

NO SILENT OR INFORMAL AMENDMENTS

Trust Amendment and Change-Control Protocol

Every proposed legal change follows a documented review path. This protocol controls records and approvals; the signed Trust controls who may amend or revoke, how consent must be given, and what formalities are required.

1	2	3	4	5
REQUEST	IMPACT REVIEW	PROFESSIONAL REVIEW	EXECUTION	SYNCHRONIZE
State the proposed change, reason, affected people/assets, and desired effective date.	Check Trust terms, community property, tax, beneficiary, business, insurance, and succession effects.	Obtain legal, tax, or financial review when the change can alter rights, title, liability, or taxation.	Use the exact signing, acknowledgment, witness, notarization, and delivery method required.	Update the certification, asset schedule, LLC records, Family OS, binder, access list, and version log.

MANDATORY CHANGE LOG FIELDS

CHANGE IDENTIFICATION	AUTHORITY CONFIRMATION
Request number, date, requestor, affected article/record, and summary.	Who approved, legal basis, required signatures, and any capacity determination.
EXECUTION PROOF	DOWNSTREAM UPDATES
Signed document name, notarization/witness status, effective date, and original location.	Bank, LLC, beneficiary, insurance, asset schedule, certification, website summary, binder, and archive.
Washington reference points for counsel review include RCW 11.103 (revocable trusts), RCW 11.98.075 (certification of trust), and RCW 11.98.078 / 11.97.010 (trustee duties and good-faith limits).	

STEWARDSHIP THROUGH DOCUMENTATION

Trustee Administration Standard

LOYALTY AND GOOD FAITH Act within the Trust, avoid undisclosed conflicts, and document transactions involving the Trustee or related parties.	ASSET PROTECTION Maintain title evidence, insurance, taxes, registrations, valuations, and secure records.
SEPARATE RECORDS Keep Trust activity distinct from personal and LLC activity unless a documented, authorized transaction connects them.	DECISION TRAIL Record major decisions, supporting facts, professional advice, approvals, and follow-up actions.
INFORMATION SECURITY Limit private records by role; use references rather than passwords or full account numbers in the binder.	CONTINUITY Maintain current successor contacts, incapacity procedures, emergency locations, and handoff instructions.

ROUTINE TRUSTEE CHECKLIST

- ☐ Review Trust-owned assets and confirm title / beneficiary records remain accurate.
- ☐ Review LLC membership, Manager authority, annual reports, insurance, and major resolutions.
- ☐ Review bank and investment statements for unusual activity, fees, or ownership discrepancies.
- ☐ Confirm tax filings, estimated payments, information returns, and advisor follow-ups are complete.
- ☐ Log material distributions, reimbursements, loans, transfers, or related-party transactions.
- ☐ Update the Trust contact list, professional advisors, and secure-record locations.
- ☐ Document unresolved issues and assign a responsible person and target date.

This Family OS does not authorize a transaction. Authority must come from the Trust, applicable law, a valid resolution, or another governing document.

ANNUAL AND EVENT-DRIVEN REVIEW

Trust Review and Emergency Continuity

The Trust section is reviewed at least annually and whenever a major family, legal, asset, tax, business, health, or residency change occurs.

ANNUAL REVIEW CHECKLIST

- [] Confirm executed Trust and amendment inventory is complete and readable.
- [] Confirm Grantor, Trustee, successor, beneficiary, and advisor contact information.
- [] Confirm Trust asset schedule matches actual title, assignments, and beneficiary designations.
- [] Confirm Second Chance Property Solutions ownership and Manager authority remain aligned.
- [] Review new assets, debts, insurance, businesses, marriages, births, deaths, separations, relocations, or incapacity concerns.
- [] Review tax status, EIN use, filings, account titling, and advisor recommendations.
- [] Test secure access: authorized people can reach required records without exposing secrets publicly.
- [] Approve version update, archive superseded copies, and set the next review date.

EMERGENCY QUICK-REFERENCE SEQUENCE

1 STABILIZE Protect people, property, accounts, businesses, and critical records.	2 CONFIRM AUTHORITY Locate signed Trust and incapacity / successor provisions before acting.	3 CONTACT ADVISORS Attorney, CPA/tax professional, insurance, financial institutions, and LLC leadership as needed.	4 DOCUMENT Maintain a dated action log, copies of notices, confirmations, expenses, and decisions.
The public website should show the process only. Names, phone numbers, passwords, original legal documents, account details, and emergency access instructions belong in the restricted vault and physical emergency packet.
